

"DolphinBalance" - Energy Journey Pico - Azores

Dolphins up close Whale Island Pico - Azores

Take time for yourself & immerse yourself in your inner Harmony

Are you looking for close contact to dolphins and whales and pure deep ocean experiences? Have you been dreaming about exploring the remote group of islands in the Atlantic Ocean with the gifts of star mothers and the cetacean-families?

With the natural gifts of the ocean and the volcanic island we are invited to dive deeply into the beauty inside and outside – to give loving attention to individual patterns and living our potential in the safe space of likeminded dolphin- and whale-lovers! Allow yourself questions - answers - processes for your personal development on this powerful island in the middle of the Atlantic based on ease, lightness and love! Benefit from the Atlantean energy with the help of the volcano Pico and the cosmic wisdom of the whales and dolphins. We will approach the healers of the sea from the boat with experienced guidance & meet the wild dolphins in the oceanwaters to follow their invitation and expand our high consciousness in their unique energy field

Itinerary:

Day 1 Arrival to Pico and transfer to accommodation, welcome-dinner

Day 2 On this day we explore the surrounding area and connect with ourselves and the ocean from land in order to carefully prepare for the encounters with the marine mammals

Day 3 After a personal consultation and briefing, we start our 1st ocean tour to be close to the whales and dolphins, afternoon expressing our creativity with a local crafts-specialist

Day 4 We undertake our 2nd ocean tour on this day and depending on the weather and the mood of the animals, invite the lucky ones to meet the dolphins while swimming in their deep blue element, afternoon connecting with the fragrances of the local plantworld

Day 5 On this day we enjoy the 3rd ocean tour and let the impressions gained sink in to allow transformation and open the space for pure love & joy, followed by enjoying a balancing massage treatment

Day 6 The 4th ocean tour enables us to have intensive contact with the marine mammals off Pico as a source of pure joie de vivre and strength with all gifts they bring us, afternoon connecting with lava and volcanic expressions in the lava fields or cave

Day 7 This day is free for the climbing of the 2351m volcano "Montanha do Pico" as highest mountain of Portugal. Alternatively you are free to get known to the neighboring island of Faial all day or simply to enjoy the time-out hiking, sailing or dreaming

Day 8 Departure from Pico or start of the booked extension program in Pico or neighboring islands

Minimum participants: 5 – max. 8 people

The price does not include flights and personal travel insurances and extras/optional trips!

Depending on the ocean sightings, this trip is ideal for guests who are attracted to the whales and dolphins of the Atlantic. Sperm whales and the occasional large baleen whales stay in the waters off Pico's south coast frequently. In the past there have been sporadic sightings of Blue Whales, Killer Whales and occasionally Humpback Whale, Fin Whale, Minke Whale, Bryde's Whale and frequent Sei Whales and Pilot Whales in this time of the year. Risso's, bottlenose, common, spotted and North Atlantic striped dolphins are also found around this time of year. Marine biology information is explained before, after and during each of the cruises, which also support research on ocean and marine mammal conservation. Likewise, I am available at any time during the voyage to answer scientific ocean matters as well as spiritual insights in tune with the whales, dolphins and island entities.

It is close to my heart to accompany my guests in contact with the Atlantic nature and the harmonious connection to the inner divine spark. To support our high vibrational experience I will contribute as your guide and co-creatrix with my multi-dimensional life experience, high vibrational gifts of crystal-sounds, natural essential oils, cacao rituals, balancing teachings in the moment and close connection to the nurturing field of the cetaceans, volcanoes and local plantworld.

As we are co-creating this journey we invite individual gifts like dance, yoga, breathwork, voice in our circles to be integrated in love & joy!

Subject to change

If the number of participants is not reached, the trip can be carried out for a surcharge

Ocean Tours and Pico Climb weather permitting

Please bring snorkel, mask, fins & neoprene if possible, hiking boots recommended for the Pico climb
